Resume

Let me clarify a few things before going into details. I try to answer briefly the most commonly asked questions in an interview. I do not have an exact picture of myself in the future, but I want to do my job as well as possible, develop myself and learn new things. I would like to create something new, that is unique in its quality and funcionality for the benefit of all users I serve. I am always loyal to those who are honest and fair. I work very hard and fast in a friendly, self motivating environment that is driven by creativity and knowledge rather than by politics such as job security or authoritarianism. In addition, it is important that the company's financial compensation and benefit packages are realistically high enough to allow for a well balanced life. I know that I might sound idealistic, but the closer a place can be to something like this the better.

Work experience

2005 November - today AyacLab Web Development http://www.ayaclab.com. Freelance web works, design, development, hosting, maintenance. Web development works at 3amlabs (http://www.logmein.com).

2000 - 2005 Overall web development and design for the State Bar of Wisconsin, their two websites: LegalExplorer what won the NABE Communications Section's Luminary award and the main site for members WisBar that receives about 1.000.000 page views a month (I participated in the complete redesign of this site). The third large project I programmed and designed was the State Bar's Intranet site called SideBar, that serves 80 employees.

1999 Supporting the Voluntary Action Center in Beloit and the Rock-County Consortium for Youth with technical assistance and web design. Helping the Fundraising Project for the University of Wisconsin-Rock County, with technical advices, and database management. Participated in the internet program of the Public Library of Beloit as a technical advisor. Working on the Beloit Help Yourself website.

1997-1999 Tutoring basic computer handling, installation and maintenance of computer hardware and software, technical consulting.

1994-1999 Freenlance designer and producer of printed materials (paper, textile, ceramics) such as business cards, greeting cards, advertisements, forms, T-Shirts, photo-mugs. Experience in Desk Top Publishing. Updating and supervising small business web sites.

1993-1999, Computer Systems Manager, Thermal Hotel Aqua, Danubius Hotels Ltd. Heviz, Hungary. Responsibilities included installing, setting up, and supervising the operation of the hotel's reservation, restaurant, tv, phone and Windows networking systems, developing softwares geared towards the unique needs of the hotel; designing and producing advertising materials for the hotel, and creating forms for internal operational use by the hotel. 24-hour troubleshooting service.
